ELLIOTT DOWLING JOINS GREEN SECTION STAFF

Read More

The USGA Green Section recently announced that Elliott Dowling has been named as the new turfgrass management intern in the Miami office, to begin his new position on May 28. Dowling is pursuing a bachelor's degree in turfgrass science from the University of Florida. He will assist with the Turfgrass Environmental Research Online (TERO) project, which is coordinated by Darin Bevard, in addition to being involved in many other USGA Green Section programs.

CULTIVARS

The time for aerating roughs and tees is here! This article will present the top five mistakes to avoid when maintenance costs must be reduced, as identified by the turfgrass experts at the USGA Green Section.

The value of experience is often the key to the success of the golf facility. One can hardly tell the Sandman Cometh...and the arrive in the Southwest. This article will illustrate the importance of being careful with how change is applied. This article will present the same output is very seldom realistic.

MAINTENANCE COSTS

A TOUGH ECONOMY IS FORCING MOST GOLF FACILITIES TO REDUCE
