

THE BULLETIN

of the

UNITED STATES GOLF ASSOCIATION GREEN SECTION

PUBLISHED BY THE U. S. GOLF ASSOCIATION GREEN SECTION AT ROOM 7209,
BLDG. F, 7TH AND B STS. N. W., WASHINGTON, D. C.

Entered as second-class matter April 21, 1926, at the post office at Washington, D. C., under Act of March 3, 1879
EDITORIAL OFFICES: P. O. BOX 313, PENNSYLVANIA AVENUE STATION, WASHINGTON, D. C.

WASHINGTON, D. C., JANUARY 1928 (SUPPLEMENT)

Index to Volume VII (1927)

- Activated sludge, 168, 188
Africa, South, turf culture in, 166
Agrostis canina (see *Velvet bent*)
 stolonifera (see *Creeping bent*)
Alfalfa, eradication of, from rough, 203
Algae, 183
Ammonium phosphate, as a putting green fertilizer, 19, 207
Ammonium sulfate:
 and earthworms, 160
 as a lawn fertilizer, 22
 as a putting green fertilizer, 19
 in combination with Semesan, in brown-patch control, 246
 in controlling weeds, 207
Annual bluegrass (see *Poa annua*)
Annual meeting:
 of Green Section, 17, 232
Annual report of Green Section chairman for 1926, 32
Ants, controlling, 142
Architecture:
 and construction, 110, 133, 156, 173, 194, 217
 of tees, 142
 planning holes for special shots, 49
 water hazards, 9
Area, methods of measuring, 102
Arlington turf garden:
 photographs of, 171, 172
Arsenate of lead:
 effect on weeds, 27, 167, 208
 experiments in poisoning soil for grub control, 25
 rates of application in construction, 26
 rates of application in topdressing, 31, 32, 167
 with mercury compounds, 216
Barium silicofluoride, for grub control, 24
Beetle (see *Japanese beetle* and *Grubs*)
Bent grass (see also *Putting greens* and *Vegetative planting*)
 Arlington, 179
 Columbia, 179
 fluffy, improvement of, 83
 German mixed, 179
 Metropolitan, at Kansas, 179
 Marble Hall, 147
 velvet, 146, 170, 180, 190
 Washington, 179
Bermuda grass (see also *Putting greens*)
 eradication of, in bunkers, 203
 experiments, 90
 in South Africa, 166
Birds of the golf course:
 The chipping sparrow, 50
 Waterfowl, 172
Blue couch grass, 90
Bluegrass:
 Annual (see *Poa annua*)
 Canada, 59
 Kentucky, 59, 162, 179
Bone ash, value of, as a fertilizer, 189
Bone black, value of, as a fertilizer, 189
Bone meal, for fairway use, 19, 163
Bordeaux mixture, 98, 242
Bristles, value of, as a fertilizer, 187
Brown-patch:
 applying chemicals for control of, 242
 control of, 140, 182, 210, 229, 242
 experiments at Arlington in 1927, 210
 in Kentucky, 229
 observations on, in 1927, 237
 relation of bent grass strains to, 130
 spread by mowers, 19
Buffalo grass, 180
Bunkers:
 construction of, 220
 weed extermination in, 143, 203
Calcium cyanide, use of in exterminating ground hogs, 103
Calogreen, 213, 240
Calomel (*mercurous chloride*), 25, 84, 87, 140, 162, 210, 213, 214, 230, 238.
Canada, course conditions in, 115
Canada bluegrass (see *Bluegrass*)
Carbon disulfid:
 emulsion of, as grub control, 24
Cascades golf course, construction of, 42
Centeter fly, 107

- Centipede grass, 90
 Charcoal, as an insecticide, 142
 Chemicals: (see also names of)
 methods of applying in brown-patch control, 242
 testing, new, on greens, 95
 Chewings' fescue:
 at Manhattan, Kansas, 179
 seed:
 characteristics, 103
 germination, 58
 Chickweed, controlling, 143
 Chipping sparrow, 50
 Churn mixer, 230
 Cocoa by-products, value of, as a fertilizer, 188
 Compost:
 pea and bean vines in, 183
 steaming of, in weed control, 208
 Construction:
 observations on, 86
 of the Cascades golf course, 42
 Copper sulfate, in water, 222
 Corrosive sublimate (*mercuric chloride*)
 as worm exterminator, 143
 percentage of mercury in, 210
 use of in brown-patch control, 242
 treatment of "snow-mold," 76, 193
 Cottonseed meal, as fairway fertilizer, 19, 163, 215
 Course conditions in the northern latitudes, 115
 Crank-case oil, use of, in killing poison-ivy, 38
 Creeping bent:
 greens at Hillcrest Country Club, 10
 Kirtland Country Club, 201
 Curling on golf courses in winter, 4
- Daffodils, 51
 Dandelions (see *Weeds*)
 Ditches, temporary, 221
 Drainage:
 seepage water, 46
 tile, 19, 229
 compared with dynamiting, 58
 Dried meat meal, value of, as fertilizer, 186
 Dynamiting, compared with tile drainage, 58
- Earthworms, and ammonium sulfate, 160
 Equipment:
 demonstration of, at Shackamaxon Country Club, 217
 power sprayer, 244
 European red fescue, 103
 Experiments:
 at Gainesville, Florida, 89
 in grub-proofing soil at Riverton, N. J., 25
 Kansas, 179
 South Africa, 166
- Fairways:
 fertilizing, 19, 163
 grasses for (northern latitudes), 59, 161
 (southern latitudes), 183
 sandy soil, 161
 improving thin turf on, 82, 162, 231
 wet, grasses for, 59
 Fall treatment of turf, 183
 Feathers, value of, as a fertilizer, 187
 Federal tax, repeal of, on club dues and initiation fees, 232
 Felt refuse, value of, as a fertilizer, 187
 Fertilizers: (see various names: also *Compost*, *Humus*, *Mushroom soil*)
 combined with fungicides, 162, 246
 commercial mixed, 19
 comparative values of, 58
 experiments with, at Manhattan, Kans., 180
 Stoke Poges Golf Links, 199
 for putting greens and fairways, 19
 in relation to weed control, 207
 miscellaneous, 186
 nitrogenous, 186
 phosphatic, 189
 potassic, 189
 Fescue:
 Chewings'; experiments with, at Manhattan, Kans., 179
 seed, germination of, 58
 greens, reseeding, 163
 red, compared with Chewings', 103
 Fish scrap, as a fertilizer, 19, 163
 Flies:
 Centeter, 107
 Prosenas, 108
 Flowers for golf courses:
 Daffodils, 51
 Foreign golf clubs and associations:
 Germany, 5
 Hungary, 16
 Fownes, William C., Jr., President, U. S. G. A., letter by, to member clubs of U. S. G. A., 39
 Fungicides: (see also various names)
 application of, by power sprayer, at Algonquin Golf Club, 244
 by power sprayer, at Burning Tree, 245
 combined with fertilizers, 162, 215, 246
 mercuric, 210, 215, 246
- Gainesville, Florida, turf experiments at, 89
 Garbage tankage, value of, as a fertilizer, 188
 German golf clubs and associations interested in Green Section work, 5
 German mixed bent: (see also *Bent grass*)
 use of, for wet fairways, 59
 Germination of Chewings' fescue seed, 58
 Golf, municipal, 6, 101
 Grasses: (see also various names)
 coarse, elimination of, in putting greens, 113
 for fairways on sandy soil, 161
 tees, 142

- wet fairways, 59
winter in the South, 183
Greenhouse soil as a topdressing, 123
Greenkeepers Club of New England, 160
Greenkeepers' Convention in Washington, 129, 170
Greens (see *Putting greens*)
Green Section:
 activities and accomplishments, 10, 99
 annual meeting of, 17
 meeting in Washington, 170
 work of, appreciated, 5
Groundhogs, exterminating, 103
Grubs: (see also *Japanese beetle*)
 Japanese beetle, parasites of, 106
 poisoning soil in control of, 23
- Hair, value of, as a fertilizer, 187
Hazards, water, 9
Hillcrest Country Club, putting greens at, 10
Hoof meal, value of, as a fertilizer, 187
Hops, spent, value of, as a fertilizer, 189
Horn meal, value of, as a fertilizer, 187
Hot Springs, Virginia:
 experience with Columbia strain on Home-
 stead course, 131
Humus, 18
Hungary (Magyar Golf Club of Budapest) in-
 terested in The Bulletin, 16
- Ice injury, 65
Insects:
 Centeter fly, 107
 Prosenia fly, 108
 Wasps, parasitic, 108
 Tiphia, 109
- Japanese beetle:
 eradication of, by arsenate of lead, 167
 parasites of, 106
 poisoning soil in control of, 23
Japanese honeysuckle, 55
Japanese lawn grass, 90
- Kentucky bluegrass (see *Bluegrass*)
Kirtland Country Club, creeping bent greens
 at, 201
- Lead arsenate, 24, 26, 27, 31, 32, 167, 208
Leather, value of, as a fertilizer, 186
Lime, in sand, soil, or water, 151
 test for, 152
Lime carbonate, in sand, 221
- Machinery:
 a new power greens mower, 114
 for applying fungicides, 244
 renovating grass, photograph of, 178
Maintenance, observations on, 86
- Manhattan, Kans., turf experiments at, 179
Manila grass, 90
Manure:
 barnyard, 19, 58, 163
 comparative values of, 103
 cow, 58, 103
 horse, 58, 103
 how best to utilize, 202
 pig, 83, 222
 poultry, 83, 215
 sheep, 103
 stable, 58
Meat meal, value of, as a fertilizer, 186
Mercuric chloride (see *corrosive sublimate*)
 cyanide, 210
 oxide, 210
 sulphate, 210
 sulphide, 210
Mercurous chloride (see *calomel*)
 nitrate, 210
Mercury compounds with arsenate of lead, 216
Metropolitan bent:
 in Kansas, 179
 Marble Hall, 147
Milorganite, 168, 188, 215, 246
Mixer, churn, 230
Mowers:
 instrumental in spreading brown-patch, 19
 power putting green (description and illustra-
 tion of), 114
Mowing, 138, 231
Muck, value and use of, 203
Municipal golf, growth of, 6, 101
 pamphlet on, 202
- New Zealand red fescue, 103
Northern grasses, 64
 latitudes, course conditions in, 115
Nu-Green, 162, 216, 241
- Old Flatbush Golf Club, 153
- Parasites of Japanese beetle, 106
Pea vines as a compost ingredient, 183
Plugging greens with creeping bent sod, 203
Poa annua (annual bluegrass), 128, 164, 184
Poa bulbosa, 78
Poa trivialis, 59
Poison-ivy, identification and eradication of, 36
Program of annual Green Section meeting, 17
Prosenia fly, 108
Public golf courses, origin and increase in
 United States, 6, 101
Putting greens:
 building up of poisoned green, 28
 drainage of, by tile, 19
 fescue, reseeding, 163
 measuring area of, 102
 Northern:
 creeping bent, at Kirtland Country Club,
 201

- fertilizers for, 19
- improving fluffy bent on, 83
- snow-mold injury on, 193
- plugging with creeping bent sod, 203
- Southern:
 - Bermuda, care of, 77
 - winter grasses on, 183
- specifications of, 218
- testing new chemicals on, 95
- topdressing, 59, 123, 150, 198
- treatment of, 149
 - in summer months, to prevent brown-patch, 140
- Redtop:
 - bluegrass-redtop greens, conversion of, to bent greens, 163
 - experiments with, at Manhattan, Kans., 179
 - use of, with Kentucky bluegrass, for wet fairways, 59
- Renovating machine, photograph of, 178
- Reseeding of fescue greens with fescue or bent, 163
- Rhode Island bent, 179
- Rough:
 - eradication of alfalfa from, 203
 - grasses for (northern), 59
 - weeds in, 35, 55
- Routine work in summer, 137
- Rules of Golf translated into Spanish, 16
- Rules of Golf, (*Royal and Ancient*) decisions on:
 - Ball:
 - driven into heap of hay or cut grass, 57
 - playing provisional, 57
 - Ground under repair, 57
 - Player misinforming opponent as to number of strokes taken, 57
- Rules of golf (*U. S. Golf Association*) decisions on:
 - Ball:
 - driven out of bounds, 152
 - dropping from ground under repair, 16
 - first to be played in match play, 177
 - improving visibility of lie, 153
 - in casual water, 15
 - knocked from tee in practice swing, 177
 - lost, 177
 - assistance in finding, 178
 - near water hazard, 209
 - (supposed) found after provisional is played, 209
 - Caddie, in trap with player, 178
 - Penalty for moving fixed or growing objects, 152
 - Player defaulting in tournament play, 15
 - Rye, use of for improving sandy soil for fairways, 82
- St. Lucie grass, 90
- Salt:
 - cleansing beach soil of, 59
 - killing Bermuda grass with, 203
 - weeds with, 143
- Sand, as winter topdressing for putting greens, 223
- Sandy soil:
 - fairway grasses for, 161
 - treatment of, 19, 82
- Scum on turf, 183
- Seaweed, value of, as a fertilizer, 190
- Seepage, a menace to good turf, 46
- Semesan, 98, 210, 214, 241, 246
- Shackamaxon Country Club, demonstration of equipment at, 217
- Shoddy, value of, as a fertilizer, 187
- Skating on golf courses in winter, 3
- Skiing on golf courses in winter, 4
- Sludge:
 - activated, 168, 188
 - sewage, 188
- Snowshoeing on golf courses in winter, 4
- Snow-mold:
 - control of injury, 75
 - injury to turf, 68
 - prevention, 193
- Sodium arsenite, as a weed killer, 203
- Soil:
 - depth of top soil necessary for greens, 19
 - greenhouse, as a topdressing, 123
 - poisoning in grub control, 24, 167
 - salty, treatment of, 59
 - sandy, fairway grasses for, 161
 - improving, 82
- Soot, value of, as a fertilizer, 188
- South Africa, turf culture in, 166
- Southern grasses:
 - for winter greens, 183
 - freezing injuries to, 63
- Soybean meal, 187, 215
- Spanish translation of rules of golf, 16
- Sparrow, chipping, 50
- Specifications for golf course, 217
- Sprayer, power, for applying fungicides (illustration of), 244
- Spring topdressing, 59
- Stoke Poges Golf Links, fertilizer experiments at, 199
- Sulfate of ammonia:
 - and earthworms, 160
 - as a lawn fertilizer, 22
 - as a putting green fertilizer, 19
 - in combination with Semesan, in brown-patch control, 246
 - with sulfate of iron in weed control, 226
- Sulfate of iron, in combination with sulfate of ammonia in weed control, 226
- Sulfuric acid, in eradication of dandelions, 142
- Summer work on golf courses, 137
- Tankage, as a fertilizer, 19, 163, 189
- Tax, Federal, on green fees, 17
 - repeal of, 232
- Tea leaves, spent, value of, as a fertilizer, 189

- Tees, grasses for, 142
 Tile drainage, 19, 58, 229
 Tiphia wasp, 108
 Tobacco dust, 142
 waste, 189
 Topdressing:
 early in spring, 59
 in Kentucky, 230
 summer, 139
 winter, 223
 proper method of, 198
 treatment for weed control, 208
 with greenhouse soil, 123
 poisoned soil, 31
 Turf:
 experiments at Gainesville, Fla., 89
 Manhattan, Kansas, 179
 South Africa, 166
 fall treatment of, 183
 fertilization in fall, 183
 grub-proofing of, 23
 thin, improvement of, on fairways, 162
 winter injury of, 62
 Turfcalomel, 213, 240

 Urea, 246
 Uspulun, 98, 162, 210, 214, 241

 Vegetative planting of putting greens at Hill-
 crest Country Club, 10
 Velvet bent, 146, 170, 180, 190
 Vines, of peas and beans, in compost, 183

 Wasps:
 parasitic, 109
 Tiphia, 108
 Waterfowl, 172

 Water hazards, 9
 Watering:
 in summer months, 138, 182
 weed control, 207
 Water seepage, a menace to good turf main-
 tenance, 46
 system, 220
 Weeding, 120, 139, 143, 206
 Weeds:
 alfalfa, in rough, 203
 Bermuda, in sand bunkers, 203
 chickweed, 143
 coarse grass in putting greens, 113
 controlled by a mixture of sulfate of iron and
 sulfate of ammonia, 226
 certain fertilizers, 207
 lead arsenate, 27, 167
 dandelions, 142
 growth of, in poisoned soil, 27
 in bent greens, 143
 bunkers, killed by salt, 143
 Japanese honeysuckle, 55
 killed by sodium arsenite, 203
 poison-ivy, 36
 suggestions for control, 206
 troublesome, in rough, 35, 55
 wild grass, in sand bunkers, 203
 Whitney, Howard F., 126
 Wild grass, prevention of, in sand bunkers, 203
 Winter injury:
 from ice sheets, 65
 to northern grasses from freezing, 63
 southern grasses from freezing, 65
 Winter kill (see *snow-mold*)
 Winter sports for golf courses, 2
 Wool waste, value of, as a fertilizer, 187
 Worm eradicator:
 corrosive sublimate, 143
 lead arsenate, 167
