

THE BULLETIN

of the

UNITED STATES GOLF ASSOCIATION GREEN SECTION

BLDG. F, CONSTITUTION AVE. AND 7TH ST., WASHINGTON, D. C.

Entered as second-class matter April 21, 1926, at the post office at Washington, D.C., under Act of March 3, 1879
EDITORIAL ADDRESS: P. O. BOX 313, BENJAMIN FRANKLIN STATION, WASHINGTON, D. C.

WASHINGTON, D. C., JANUARY, 1933 (SUPPLEMENT)

INDEX TO VOLUME 12 (1932)

- Acid phosphate (superphosphate), 212, 229
Acid soil: and lime for bent turf, 190; bent grass response to, 196; correcting with agricultural slag, 81
Activated sludge, 220, 221
Agricultural slag for soil acidity, 81
Alkaline soil: bent grass response to, 190, 196; treatment of, 229
Aluminum sulphate, 229
Ammonium phosphate, 220
 sulphate: acidifying effects of, 190, 198; clover and crabgrass control, 229, 230; demonstration turf garden reports on, 220, 221; value and use of, 212
Annual bluegrass: control, 82; rating as putting turf, 222
 report of Green Section for 1931, 2
Anthracnose, 156
Ants, 186
Arlington turf garden, air view of, 187
Army worms, 185
Arsenate of lead in webworm control, 16
Astoria bent as a "creeping bent," 37

Beetles, 185, 223
Bent grass: Astoria as a "creeping bent," 37; creeping, definition of, 37; disease resistance and susceptibility of, 103; putting tests of, 224; ratings in demonstration turf gardens, 222, 223; selecting for putting green, 213; soil reaction on, 190, 196
Bichloride of mercury (corrosive sublimate), 116, 118, 121, 130, 228
Black scum, 157
Bluegrass:
 annual: control of, 82; rating in demonstration turf gardens, 222
 Kentucky: rating in demonstration turf gardens, 223; leafspot of, 146
Bone meal: rating in demonstration turf gardens, 220, 221; value and use of, 212
Bordeaux mixture, 115, 116, 119
Brownpatch disease and its control, 18, 81, 134, 228
Bruising of turf, 179
Bulletin to be published in six numbers, 42
Buttercup control, 230
Calomel, 118, 121, 130
Caustic potash, effect of on bent grass, 201
Chemical deficiencies in soil, 168; injuries to turf, 172
Chinch bugs, 186
Chlorinated water, acidity produced by, 198
Clay, role of as soil constituent, 32
Clover control, 230
Colonial bent: disease resistance and susceptibility of, 103; putting tests of, 224; ratings in demonstration turf gardens, 222, 223; soil-reaction effects on, 200, 204
Columbia creeping bent: disease resistance and susceptibility of, 103; putting tests of, 224; rating in demonstration turf gardens, 222
Construction, faulty, in relation to disease control, 107; soil preparation, 29
Cooperative use of equipment, 8
Copper stearate, 116
 sulphate, 116, 119
Corona, 116
Corrosive sublimate, 116, 118, 121, 130, 228
Crabgrass control, 229, 230
Creeping bent: definition and use of name, 37; disease resistance and susceptibility of, 103; football-field use, 214; putting tests on, 224; ratings in demonstration turf gardens, 222; soil-reaction effects on, 199, 201
Crown gall, 90
Cut, height of in relation to disease control, 113
Cutworms: distance traveled at night, 80; injuring turf, 185

Dam construction, 12
Damping-off of seedling turf, 144
Demonstration turf garden reports for 1932, 218
Dichondra control, 82
Diseases, turf, and their control, 87; brownpatch, 18, 81, 134, 137, 228; snowmold, 140, 214
Disking fairways, 213
Dollarspot, 137
Drainage in relation to disease control, 106, 161

Earthworms, distance traveled at night, 80
Equipment, cooperative use of, 8

- Ergot, 156
 Erosion, gully, checking, 9
 Evergreens, 43
 Eyespot disease, 147, 156
- Fairways: disking and spiking, 213; fertilizers, 212, 221; landscaping, 47
 Fairy rings, 150
 Fertilizers: ammonium sulphate, 190, 198, 212, 220, 221, 229, 230; disease-control relation, 110; fairway, 212, 221; mixed, 220, 221, 229; putting green, 219, 229; ratings of in demonstration turf gardens, 219; soil reaction as affected by, 190, 196
 Fescue: rating in demonstration turf gardens, 222, 223; turfing, 195
 Football turf, 214
 Footrot, 156
 Formaldehyde, 124
 Formalin, 116
 Frost injury, 181
 Fungi, role of in plant diseases, 89
 Fungicides: development and use of, 114; economy in the use of, 228; mercury compounds, comparative efficacy of, 18; proprietary, 228; rates and methods of application, 124
- Gardens, demonstration turf, reports on, 218
 German mixed bent: putting tests on, 224; rating of in demonstration turf gardens, 223
 Germisan, 116
 Green scum, 157
 Green Section: annual report for 1931, 2; meetings in 1931, 5
 Grubs, 184, 223, 227
 Gulf Stream Golf Club, 18th hole, 39
 Gullies, checking, 9
 Gypsum, 229
- Hairy root, 90
 Herbae-Mira fraud, 195
 Hydrochloric acid, effect of on bent turf, 201
- Insects: cutworms, 185; grubs, 184, 223, 227; injury to turf, 184; Japanese beetle, 223; locusts, Old World, 223; mole cricket, 185; parasitic control of, 223, 227; sod webworm, 14
- Japanese beetle control, 223
- Kentucky bluegrass rating in demonstration turf gardens, 223; diseases, 146
 Kerosene emulsion in webworm control, 17
- Landscape plants for northern golf courses, 43
 Large brownpatch, 134
 Lead arsenate in webworm control, 16
 Leafspot on bluegrass, 146
- Lightning injury to turf, 184
 Lime: bent turf response to, 190, 196; brown-patch control, 81; manner and rate of application, 194; fertilizer rating in demonstration turf gardens, 221
 Loams, composition of, 32
 Locusts, Old World, 223
- Magnesium oxide, effect of on bent turf, 200; in limestone, 213
 Manure rating in demonstration turf gardens, 221
 Matted turf, 177
 Meetings, Green Section, in 1931, 5
 Mercury as a fungicide, comparative efficacy of forms of, 18, 116, 118, 119, 121, 123, 130, 228
 Metropolitan creeping bent: disease resistance and susceptibility of, 103; putting tests on, 224; rating in demonstration turf gardens, 222
 Mildew, 155
 Mixed bent: putting tests on, 224; rating in demonstration turf gardens, 223
 Moisture deficiency in disease incidence, 164
 Mole crickets, 185
 Muck: composition of, 33; value and use of, 81
 Muriate of potash: acidity produced by, 198; value and use of, 212
 Muriatic acid, effect of on bent turf, 201
- Nematodes, 156
 Netblotch, 156
 Nitrate of soda, rating in demonstration turf gardens, 220
 Nitrogen, effects of soil reaction on, 209
- Organic matter for improving soil, 23, 34
- Parasitic turf diseases, 89
 Peat, composition of, 33; value and use of, 81
 Philadelphia Country Club, Spring Mill Course, 7th hole, 19
 Phosphates: ammonium, rating in demonstration turf gardens, 220; effect of soil reaction on, 207
 Plantings for golf course, 43
 Poa annua control, 82; rating as putting turf, 222
 Potash, caustic, effect of on bent turf, 201
 Potassium chloride, acidity produced by, 198; permanganate as a fungicide, 124
 Poultry manure rating in demonstration turf gardens, 220
 Proportioning machines, 132
 Putting greens: bent grass for, selecting, 213; fertilizer ratings, 219; fertilizing soil before planting, 229; grasses, putting tests on, 224; grasses, rating of, 221; soggy and soft, 24, 25, 27; soil and turf for pitch shots, 22, 25, 27; soil structure requisites, 22, 29; topdressing, 31; watering, 22, 25, 27

- Pyrethrum, use of, 16
 Pythium disease, 139
- Redtop rating in demonstration gardens, 223
 Reports: annual of Green Section for 1931, 2;
 demonstration turf garden for 1932, 218
- Resistant grasses, 102
 Ringspot disease, 150
 Rust disease, 154
- Salt: concentration in soil, 170; water, treat-
 ment of turf subject to injury from, 214
- Sand as soil particles, 32; river, use of on
 putting greens, 18
- Scald, 160
 Scalping, 181
 Sea Island Golf Club, 13th hole, 231
 Seaside creeping bent, disease susceptibility and
 resistance, 103; putting tests on, 224;
 rating in demonstration turf gardens, 222
- Sedgefield Country Club, 18th hole, 83
 Seeding, late fall, 214
 Semesan, 116, 118
 Shading injury to turf, 176
 Shrubs for golf course, 43
 Silt, definition of, 32
 Slag, agricultural, for correcting soil acidity, 81
 Slime mold, 159
 Sludge, activated, rating in demonstration turf
 gardens, 220, 221
- Small browpatch, 137
 Smut, 152
 Snowmold, 140, 214
 Sod webworms, 14
- Soil: acidity and lime for bent turf, 174, 190,
 196; classification of, 32; cohesion of,
 35; drainage in relation to disease con-
 trol, 106, 161; erosion checks, 9; kinds
 and classifications, 32; particles, classi-
 fication of, 32; preparation in relation
 to disease control, 105; reaction, effects
 of on growth of bent, 196; sterilizing,
 113; structure for putting greens, 29;
 testing for plasticity and cohesion, 35;
 texture defects, 167
- Spiking fairways, 213
 Spotlight disease, 139
 Spotblotch disease, 156
 Sprayers, use of, 131
 Sterilizing soil and topdressing for disease con-
 trol, 113
- Sulphate of aluminum, 229
 ammonia in clover control, 229, 230;
 acidifying soil, 190, 198; rating in
 demonstration turf gardens, 220, 221;
 value and use of, 212
- Sulphur, 116, 124, 192
 Sulphuric acid, effect of on bent turf, 201
 Superphosphate, value and use of, 212, 229
- Takeall disease, 156
 Topdressing putting greens, 31; in relation to
 disease control, 111; sterilizing, 113
- Trees for golf course, 43
 Turf diseases and their control, 85
- Urea, reaction of in soil, 220, 221; rating in
 demonstration turf gardens, 220
- Uspulun, 116, 118
- Velvet bent: disease resistance and susceptibil-
 ity, 104; effects of acids on, 203; effects
 of lime on, 200; putting tests on, 224;
 rating in demonstration turf gardens, 222
- Vines for golf course, 51
 Virginia creeping bent: disease resistance and
 susceptibility, 104; putting tests on, 224;
 rating in demonstration turf gardens, 222
- Washes, gully, checking, 9
 Washington creeping bent, disease resistance
 and susceptibility, 103; putting tests on,
 224; rating in demonstration turf gar-
 dens, 222
- Water, chlorinated, acidity produced by, 198
 Watering, excessive, injury from, 22, 27; in
 relation to disease control, 108; in rela-
 tion to pitch shots, 22, 25, 27
- Webworm control, 14
 Weed control: buttercup, 230; clover, 230;
 crabgrass, 229, 230; dichondra, 82
- White Sulphur Springs, W. Va., 10th hole,
 No. 3 course, 215
- Winterkill, 161
- Yellow tufts, 183
- Zinc compounds as fungicides, 124
 Zonate eyespot disease, 147
