## FEATURED

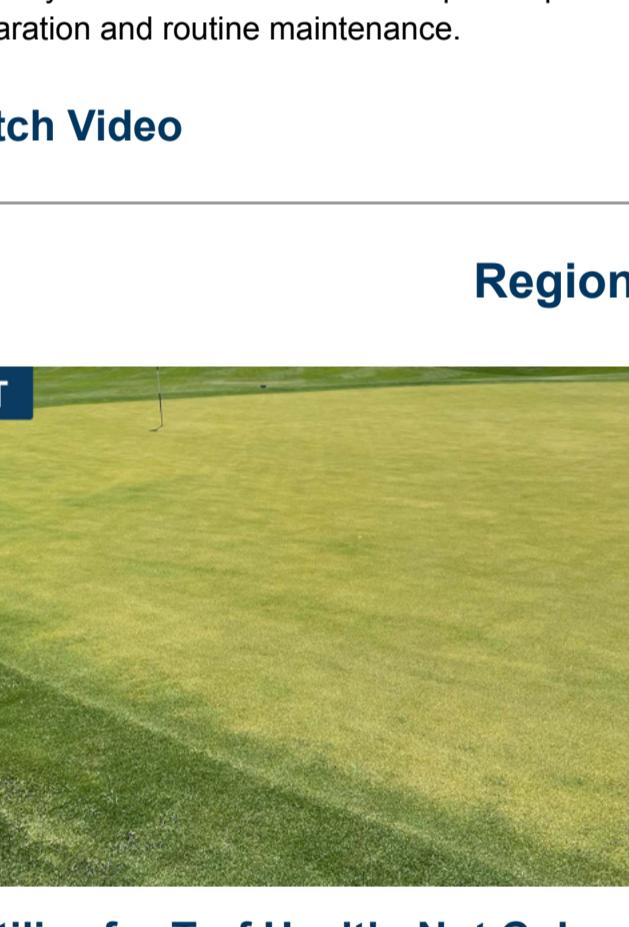

### Understanding the Golfers at Your Course

Golfers have a wide range of demographic characteristics, skill levels, motivations for playing, and varying amounts of time and resources to devote toward golf. If golf facilities can better understand the characteristics of their current and potential customers, they can improve their course and offerings to increase golfer satisfaction in the most effective manner possible. As part of the USGA's ongoing research into the golfer experience, a recent project classified golfers into eight archetypes based on their individual characteristics and how they engage with the game. This information can be used by courses to better understand their customers and improve golfer satisfaction.

### FORE THE GOLFER

#### Golf Course Irrigation Systems – There's More Than Meets the Eye

We've all seen sprinklers running during a round of golf, but a lot of hidden technology and infrastructure is required for them to pop up and deliver water exactly where it's needed.

### WEST

#### Fertilize for Turf Health, Not Color

Your putting green fertilizer program should supply just enough nitrogen to deliver healthy turf that recovers well from play.
