More From The Green Section Record

In Case You Missed It

There are so many grasses on the market that it can be a daunting task to select the best option for your particular situation. To complicate matters further, superintendents must also factor in the resources available for long-term maintenance. In the November 4 issue of the USGA *Green Section Record*, we outlined the key considerations in choosing the best grasses for your course.

Coming Up Next Issue

Data plays a role in nearly all aspects of life. So it's no surprise it's arrived in the turf world too. Investing a small amount of effort into putting green data can provide huge returns. In the December 2 issue of the USGA *Green Section Record*, we'll give superintendents ways to use data to gain valuable insights and aid in decisions, without getting lost in a sea of numbers.
