Signs can be a very good
method of communicating
information and updating
golfers. Marion Country
Club, Marion, Ohio.*

JEAN PRIOR

Golf courses have gotten involved in efforts to incorporate more wildlife habitat into managed landscapes to promote bird diversity. See page 10.

A sign of the times for the recent trend on golf courses. See page 6.

1

Communication and Golf Course Maintenance

Communication is ultimately more important than agronomics in the daily conditioning of a golf course!

By Bob Brame

6

Taking Spikeless Shoes Public

Why not for the public player?

By Sam Meredith

8

Keep Your Edge

Grinding techniques can strengthen a turf maintenance program.

By Keith Happ

10

The Bird Communities of Prairie Dunes Country Club and Sand Hills State Park

"All wilderness areas, no matter how small or imperfect, have a large value to land-science" — Aldo Leopold, wildlife biologist

By Max R. Terman, Ph.D.
