How Fair Are Your Fairways?
A report card for evaluating fairway quality.
By Patrick J. Gross

One Solution for Second-Rate Surrounds
Renovating the green surrounds and the intermediate roughs can immediately improve the appearance and playability of an old golf course.
By Randy Witt, CGCS

It's Raining, It's Pouring, The Golf Course is Flooding
Floods may be unpredictable, but the turf manager’s recovery program should be well organized.
By Chris Hartwig

Selecting Perennial Ryegrasses for Use on Golf Courses
Despite some problems, perennial ryegrasses remain attractive.
By Thomas R. Turner, Ph.D.

Effluent Water: Nightmare or Dream Come True?
Effluent water is nothing to lose sleep over — you just need to understand the management challenges you face.
By Mike Huck, R. N. Carrow, and R. R. Duncan

Cardinal Rules Just Shouldn’t Be Broken!
Layering problems occur too often in putting greens, and good planning and thorough research can help you avoid this common pitfall.
By David Oatis

Transgenic Turfgrasses
A unique tool to advancing the development of new turfgrass varieties.
By Arthur P. Weber

Evaluating Performance
A new tool to help superintendents rate their environmental performance.
By Jean T. Mackay

News Notes

Smoothing Out The Roughs
Let’s change the name of roughs. After all, most are not rough anymore.
By Stanley J. Zontek
