

# Contents

March-April 2003 Volume 41, Number 2

## 1 Aeration and Topdressing for the 21st Century

Two old concepts are linked together to offer up-to-date recommendations.

BY PAT O'BRIEN AND CHRIS HARTWIGER

## 8 Putting Green Regrassing and So Much More

A putting green regrassing project became a significant golf course regrassing project.

BY WARREN SAVINI

## 11 Can Ryegrasses Speed Establishment of Kentucky Bluegrass Fairways?

Fairway cover is accomplished faster when ryegrass is in the mix, but with negligible bluegrass establishment.

BY E. H. ERVIN, D. R. CHALMERS, AND S. D. ASKEW

## 13 Now You See It, Now You Don't

Golf courses change imperceptibly over time. Many subtle changes directly impact play.

BY LARRY GILHULY

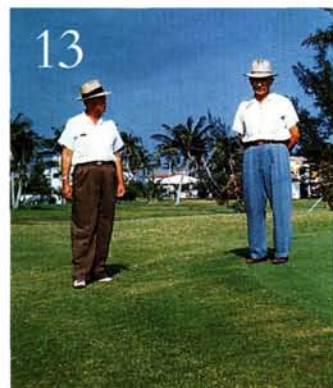

## 16 Nutrient and Sediment Runoff from a Prairie Golf Course

Tracking runoff offers important insights for management.

BY STEVE STARRETT AND YUNSHENG SU

## 19 50 Years of Turf Advisory Service

We thank and recognize those who have served on the Green Section's agronomy staff.

## 22 Measuring Nitrogen Loss from a Floating Green

A unique opportunity to assess nutrient losses.

BY WILLIAM J. JOHNSTON AND CHARLES T. GOLOB

## 26 Specially Designed Wetlands Treat Golf Course Runoff

Phytozones can help with water quality management.

BY KRAIG MARQUIS

## 27 News Notes

## 28 Just When You Think You've Heard It All ...

Superintendents share stories regarding the most outlandish maintenance requests from golfers.

BY PATRICK J. GROSS

## 30 Turf Twisters
