November-December 2003 Volume 41, Number 6

1 The Birth of a Putting Green

A turf manager's guide for establishing a new putting green.

BY CHARLES B. (BUD) WHITE

7 Are Alternatives to Traditional Nematicides a Real Possibility?

Although many of the traditional products may no longer be used, new ones may be available soon.

BY WILLIAM T. CROW

9 Gray Leaf Spot of Perennial Ryegrass Turf: An Emerging Problem for the Turfgrass Industry

Research is unraveling the mysteries of this serious disease of ryegrass fairways and roughs.

BY WAKAR UDDIN, GNANA VIJJI,
AND PAUL VINCELLI

14 GREAT EXPECTATIONS

Managing the perils of golf course renovation: Perspectives from a Green Section agronomist and a golf course superintendent.

15 Face-Lift or Letdown

Help golfers develop fair expectations for successful golf course renovations.

BY TODD LOWE

17 Can't Get No . . . Satisfaction!

An informed membership will help you succeed with project work: managing golfers' expectations.

BY CHRIS CARSON

23

20 Zoysiagrass, Salt Glands, and Salt Tolerance

Observing the density of salt glands may make selecting for salt-tolerant grasses a lot easier.

BY K. B. MARCUM, G. WESS,
D. T. RAY, AND M. C. ENGELKE

22 A Glimpse at the TAS of the Sixties

Memories of the early days by a USGA Green Section agronomist from 1962 to 1976.

BY HOLMAN GRIFFIN

23 A Twosome's Tale of Two Times

The evolution of the Green Section and the Turf Advisory Service from an inside perspective.

BY LOIS AND JIM LATHAM

25 Much To Do About Wetlands

The management of wetlands — a primer.

BY JEAN MACKAY

27 News Notes

28 Maybe It's Time for a Change

Sometimes you just have to bite the bullet.

BY PAUL H. VERMEULEN
