3) Notification of your Intent To Reprint Content.

USGA agronomists provide regular regional updates outlining current issues and observations from the field. Be sure to view updates from multiple regions as featured ideas, techniques and solutions to problems often apply to other parts of the country.

USGA Green Section is divided into four regions staffed by agronomists who work with golf facilities on care of the golf course.

NORTHEAST REGION

March 10th.

CENTRAL REGION

What’s the one thing on a golf course that costs an exorbitant amount of money, most golfers never see, and most modern golf courses can’t survive without? An irrigation system. For an amount of money, most golfers never see, and most modern golf course maintenance fleet, moisture meters should receive in-depth discussion on how to determine when to replace your irrigation system be sure to watch out for the next issue of the Green Section Record.

SOUTHEAST REGION

Maintaining putting surfaces on bermudagrass greens can be challenging during the winter. The agronomists from the Southeast Region offer seven tips to help you maintain smoother bermudagrass putting greens during winter.

WEST REGION

From multiple regions as featured ideas, techniques and solutions to problems often apply to other parts of the country.

All of the articles, videos, presentations, and webcasts have been assembled into a single, easy-to-use 2014 USGA Green Section Record Compendium. The compendium is a very powerful resource. In addition to being easy to navigate and fully searchable, individual articles can be printed or shared via email and social media.

ALL 2014 ARTICLES ARE NOW AVAILABLE IN ONE DOCUMENT

GREEN SECTION RECORD

USGA Agronomist Position Now Open

The United States Golf Association seeks an Agronomist in their Green Section's West Region office located in Santa Ana, California. Candidates must possess excellent written and oral communication skills, attention to detail and the desire to provide high-quality progressive products and services. A Bachelor of Science degree in Agronomy, Horticulture or related field is required, along with 3 years of golf course or related work experience.

Please take a few moments to browse the compendium and feel free to share it with your colleagues. For your convenience, the compendium is available on our website for you to enjoy and utilize the time to read when you received each issue. To make it as easy as possible to navigate and fully searchable, individual articles can be printed or shared via email and social media.

We sent you a lot of information in 2014 - maybe even more than you had time to read when you received each issue. To make it as easy as possible to navigate and fully searchable, individual articles can be printed or shared via email and social media.
