How Does Your Practice Facility Stack Up?

By David Oatis, regional director, Northeast Region and Todd Lowe, agronomist, Southeast Region

Practice facilities are important and play a valuable role at golf facilities. Many courses have invested in practice facility improvements, expansions and upgrades in recent years.

Are you wondering whether improvements to your practice facility would be worthwhile? Have you considered all the different options? Learning about the history of practice facilities and the importance of design, use and maintenance will help you create a safe and fun area where players can work on their game.

Regional Updates

West Region

Turfgrass reduction is the new normal in many areas of the West Region, but the question remains: What should go in its place?

[View Update](#)

Northeast Region

Dry conditions in the north and frequent thunderstorms in the south are creating very different challenges for superintendents in the Northeast Region as summer hits high gear.

[View Update](#)

Central Region

For plant protectants to be most effective, they need to be accurately delivered. Critical to their success is using an appropriate spray volume.

[View Update](#)

Southeast Region

Turfgrass field days are a great opportunity to learn and collaborate with colleagues and university experts.
