Coming Up Next Issue

You may not want to think about it while you're enjoying the summer sun, but winter will be here before you know it. Although winter conditions often are volatile, planning now for the inevitable can help reduce the risk of winter injury. The August 5, 2016 issue of the USGA *Green Section Record* provides insight into the causes of winter injury and offers strategies to help limit winter injury.

Latest From Course Care

Case Study: Switching Turfgrasses to Improve Divot Recovery

The cool-season practice tees at Laurel Creek Country Club in Mount Laurel, N.J., were struggling to endure heavy practice during hot summers. Converting turfgrass species provided a better practice experience for golfers while reducing the use of resources.
