Northeast Region

Intermediate rough took it on the chin this year. While seed or sod can be used for recovery, now is a good time to consider if your golf course really needs this feature.

Coming Up Next Issue

Cart paths are a controversial topic at many golf courses. But, when thoughtfully designed and installed, cart paths can improve playing conditions by reducing traffic damage. For helpful tips when it comes to cart paths, stay tuned for the November 2, 2018, issue of the *USGA Green Section Record*.

Distance Insights Survey

The USGA and The R&A have opened a global survey to solicit the opinions and perspectives of the entire golf community on the topic of distance. Now through October 31, we encourage you to take the survey and share it with your colleagues. The results will comprise a significant part of the final Distance Insights Project report to be delivered in 2019.
