

Cart Paths And Traffic Management Go Hand In Hand

By [Dave Oatis](#) and [Steve Kammerer](#)

Traffic from golf carts and course maintenance vehicles has a huge impact on turf health, playability and aesthetics. While turf can be very wear tolerant when traffic is widely dispersed, wear problems can quickly develop in areas where traffic is concentrated. Not surprisingly, most golf facilities have installed a system of cart paths to manage traffic problems.

Effectively managing traffic is a vital part of maintaining golfer satisfaction and a healthy bottom line.

Turf Minutes: Using Turf Colorants On Golf Courses

When the weather gets cold and grass turns brown, some golf courses turn to overseeding. But there is another option. Turf colorants can also provide year-round color but without the cost and challenges of overseeding.
