

Water Quality and Pesticide Interactions

By [John Daniels](#), agronomist, Central Region

Managing pests on a golf course is a constant challenge, but good results are increasingly achievable with the help of modern pesticides. To ensure optimal performance of pesticide applications, it is important for superintendents to understand the role that water quality plays. This article will explain how water quality may impact certain products and provide steps for addressing common water quality issues.

Fore The Golfer: Winter Play On The Golf Course

Temporary greens and cart restrictions are the last things most golfers want to see, but these measures may be necessary to keep winter golf from causing lasting damage. A little patience and reasonable expectations go a long way at this time of year.

The Benefits of Painting Fairways Versus Overseeding

When the weather gets cold and grass turns brown, some golf courses are using turf colorants as an alternative to overseeding. Turf colorants provide winter color without the cost, resource consumption and turf issues associated with overseeding.

BMP Case Study

Sand Channel Drainage Improves Fairway Conditions

A mild winter in many areas is allowing superintendents to make needed drainage improvements. This is an example of one course that enjoyed improved conditions after installing sand channel drainage in a troublesome fairway.

Regional Updates

West Region

Meetings may not be the most fun part of a superintendent's job, but they are a great opportunity to showcase your expertise and increase awareness about course maintenance.

[Read More](#)

Northeast Region

For good reason, many golf facilities have been paying greater attention to forward tees. Some simple changes can be made this offseason to encourage more golfers to use them.

Central Region

Don't miss your mark with aeration this year! Proper sand depth is essential for managing organic matter and keeping greens healthy.

[Read More](#)

Southeast Region

A mild winter in the Southeast is affecting overall playing conditions and fairway maintenance practices.
