Improving Pace of Play and the Golfer Experience

By Hunki Yun, Director of Business Development, USGA Regional Affairs

Golf enjoyed a resurgence in 2020, with increased rounds reported at courses throughout the U.S. The question now is whether golf can capitalize on this momentum to make lasting gains in participation and revenue. The key will be improving the game's primary product – a round of golf. Understanding what drives golfer satisfaction, and dissatisfaction, has been the focus of extensive USGA-funded research over the past several years, and our recommendations can help you improve the golfer experience and overall financial health of your facility.

Choosing Which Tees to Play

Selecting an appropriate tee for your round has a huge impact on how much fun you have and the overall pace of play. Here are a few techniques you can use to choose the right tee.

100th Anniversary: USGA Greens

As golfers, we don't spend much time thinking about what is under the surface of a green while we're lining up a key putt, but the way a green is built has a huge impact on our round.
